#### ROAD MAPS

Up-to-date road maps of Alabama, Florida, Georgia, Kentucky, Mississippi, the Gulf Coast, and Miami may be had free at Standard Oil Service Stations in these areas. They are especially designed to be of the greatest help to the motorist—unnecessary detail eliminated, type faces wisely chosen, colors skillfully employed to make them easy to read, and many of them illustrated with points of interest.

Noborin ca sea - the crayfish

G. latifrons with trace of asymmetry

pools - (1-3 ft deep) Leaf drift in pools.  
Hundreds of small crayfish all along  
creek - larger ones around the leaf  
drifts or under flat stones - This is a  
tributary to the one that supplies Auburn  
with water - In the park it flows into  
the dammed up lake - dark olive greenish-  
brown water - Salamanders & frogs  
were also taken - water cold -

4-1041-1

Same as H-941-6  
near Chewach St. Pt. Lee Co. Ala -

4-1041-2

887.7 - Moderate size clear, swift  
stream with rocks & in many places  
rock bottom - resembling mt. stream -  
Crayfish taken by turning rocks - 1<sup>st</sup>  
stream w. of Chewach St. Pt. between  
Park and Highway # U.S. 29. - Saw  
catfish - caught Natrix sphenogaster(?)  
mayflies, damself & dragon flies,  
isopods & Amphipods -

Toward Columbus, Ga. S. 3 miles SE of (H). Hico, Ga.

4-1041-3 890.9 2 specimens taken from  
rock & soil up to 1 ft. Crayfish taken from  
soil & dirt  
root: - beneath stone. Much silt in deeper  
pools.

891.7 Hy. 29.

895.5 South City Limits of Columbus, Ga.

4-1041-4 Zone S. 3 miles SE of Hico, Ga.  
specimens growing through  
openings in rocks. Both species  
taken from shallow burrows lying  
outside ditch. Root of the specimens  
in a 2 ft. deep vegetation in meadow  
with both crayfish in same  
2. remove - except shellings -

4-1041-5 in a stream on the same  
Exp. Station ground - Crayfish taken  
among dead leaves -

4-1041-6. Snow dammed up stream to form  
pond - Crayfish taken in leaf drift  
near entrance of pond. One specimen.

Callinectes  
reticulatus

1.3 mi S.E Russell, Lee Co  
Tenn

✓ taken from algae mats on outlet -  
This pond is on Expt. Station ground -  
also -

929.4 Auburn -

✓ 4-12-11 941.5 - Lee County, Ala. Small creek  
under cotton willow and  
algae. Insects taken from  
Russell side and among the leafy  
undergrowth. Mostly Opilids. (Saw a large  
albino crayfish like the Cambarus group  
taken here. Had a good look at it. As  
I attempted to catch it, however, it scurried  
into a washout or furrow in the bank.)

945.7 Salem, Ala.

Opilids 952.0 - Collected spiders under rocks  
on road shoulder 6.3 mi E. Salem

958.5 Russell - Lee Co. Line

4-12-11 959.8, Russell co, Alabama. Swift

H.K. 1134 near stream flowing over  
rocky, sandy bottom - Tubellus

✓ 2000 in rocks in swift water -  
Crayfish from beneath rocks and in  
leaf debris.

963.0 Chattahoochee R. at Columbus, Ga.  
Chehaw State Park Dougherty Co., Ga.

Small crayfish  
in case of *Girardinus substriatus*  
Desmottianus bicolor Pond shallow  
margin. Taken about 12:30 A.M. Heavy  
light and sun set over dense emergent  
grasses, duckweed. The bottom is  
bottom - Crawfish & mayfly taken  
a light at foot. Larva of first form  
red with a vermilion carapace, red  
and a darkly robed stripe on either  
side of carapace, as well as a median  
dorsal stripe. Same color, blackish brown  
elsewhere - D. The female specimen  
brown with vermilion is substituted for  
the vermilion. Gratiola ramosa sub. caesia

- 4-1341-1 ✓ Same as 4-1241-3
